Subject: Tomorrow's Meeting

Hey Bill,

I talked with Chuck and he will be sitting at a table tomorrow at the meeting to help answer questions. I gave him all of my comments from February and June (to both you and him) for him to bring to the meeting.

Basically, they have not yet submitted an NOI for industrial storm water as far as I know, but they plan to combine their storm water sampling with the 632 required sampling, and will have to submit a characterization study and their SWPPP to us at that time. I have not yet received any of that, so, I'm not sure if it was submitted to permits section or not submitted at all yet. They do need to submit it prior to start up of operations though.

Please let me know if you have further questions.

Thanks.

Linds
